RATIONALE

To define the requirements and process for the nomination and election of the dual role Child Life Certification Commission (CLCC) Commissioner-elect and Committee Chair-elect.

POLICY

In order to serve in a dual role as Certification Commissioner and Chair of a CLCC Committee, nominees must have demonstrated commitment to the work of certification and the expectations for volunteer members of the Commission. Their experience as member volunteers will have exposed nominees to communications with Commission leadership, participation in a range of skill development activities such as item writing and exam development overall, and at times additional work on tasks related to the goals of other CLCC committees. For these reasons, 2 years of previous CLCC committee volunteer participation is essential for nominees.

Nominations are not required for the positions of Commissioner and Chair-elect for the Appeals or Ethics Committees. These positions are appointed by the CLCC Chair, and the committees are composed of past - CLCC Chairs and current CLCC Commissioners, respectively. The ACLP BOD representative Commissioner and the Public Commissioner are also appointed.

The CLCC nomination process is timed partly to align with ACLP Board of Directors’ nominations but is made separately by CLCC volunteers.

DEFINITIONS

The CLCC’s nominating and voting processes are consistent and parallel with those of the ACLP but are held separately in order to avoid undue influence. The CLCC elections are not voted by the membership of the ACLP (NCCA, Standard 2); they will be determined by a democratic vote by all volunteer members of the CLCC. Inclusion of a Public Commissioner with voting rights provides a further measure of accountability to the public, by bringing a perspective to the decision-making of the certification program that is broader than the certificants, and to help balance the certification program’s role in protecting the public while advancing the interests of the certificants (ICE, NCCA, Standard 2. requirements).
