JOIN

Program membership allows you to consolidate all individual memberships for your child life team members into one billing cycle where individuals can be added or removed at any time during the year.

You can register for a Child Life Program Membership online or by submitting an online application using the link below. To register online, you must have the rights to edit your hospital's profile with ACLP in order to use the online self-service. Additionally, all staff you wish to add to the program membership must have ACLP accounts that are tied to your hospital's record.
